DEATH OF DR. BEAUPERTHUY

As our readers are aware, Dr. Milroy has recently, on the recommendation of the Royal College of Physicians, been despatched by the Colonial Office to the West Indies, in order to investigate the reality of the alleged cure of leprosy by a procedure which Dr. Beaupert Huy has for a considerable time adopted, the expenses of the mission being defrayed by the joint contributions of the colonies interested in the matter. He was instructed, first, to visit Demerara, where Dr. Beaupert Huy was then engaged in putting his procedure in force, in order that he might have the opportunity of personal communication with him before proceeding through the other colonies on his tour of inspection. We understand that he was received in the most cordial and friendly way by Dr. Beaupert Huy, who impressed him with a feeling of great respect for his truthfulness and earnestness. We regret having to add that in a letter received from Dr. Milroy, dated September 5, he states that this indefatigable French Physician, whom he had seen two days before in perfect health, had just suddenly died of apoplexy. Dr. Milroy intended shortly to sail for Barbadoes.
